## Daily Survey: Animal Testing

October 5 - 6, 2017 - 1000 US Adults

<b>Interviewing Dates</b>	October 5 - 6, 2017
<b>Target population</b>	U.S. citizens, aged 18 and over.
<b>Sampling method</b>	Respondents were selected from YouGov's opt-in Internet panel using sample matching. A random sample (stratified by gender, age, race, education, geographic region, and voter registration) was selected from the 2014 American Community Study. Voter registration was imputed from the November 2014 Current Population Survey Registration and Voting Supplement.
<b>Weighting</b>	The sample was weighted based on gender, age, race, education, 2012 and 2016 Presidential votes. The weights range from 0.131 to 5.329, with a mean of one and a standard deviation of 0.774.
<b>Number of respondents</b>	1000
<b>Margin of error</b>	± 3.9% (adjusted for weighting)
<b>Survey mode</b>	Web-based interviews
<b>Questions not reported</b>	48 questions not reported.
